

BIM FOR URBAN PLANNING

Ahmad Khairat

Technical Specialist AEC | **Autodesk**

ABOUT THE SPEAKER

Technical Specialist AEC, Autodesk

- Based in Riyadh, Saudi Arabia
- 13+ years of experience in BIM, GIS & FM industries
- Various roles (Engineering, pre-sales, Cloud architecture, Software design & development)
- B.Sc. in Urban and Regional Planning from Cairo University
- Passionate about the Forge Cloud platform and the convergence between BIM & GIS

BETTER

WHAT IS URBAN PLANNING

URBAN PLANNING

- A technical and political process
- Concerned with:
 - the welfare of people
 - control of the use of land
 - Design of the urban [built] environment including transportation and communication networks
 - Protection and enhancement of the natural environment

- McGill School of Urban Planning

WHAT IS BIM

Building Information Modeling

More efficiently plan, design, construct, and manage buildings and infrastructure.

“A minimal increase in upfront costs of about 2% to support optimized design will lead on average to life-cycle savings of 20% on total costs.”

BIM IN THE CONTEXT OF URBAN PLANNING

URBAN PLANNING PROCESS

PREPARATORY / EXPLORATION PHASE

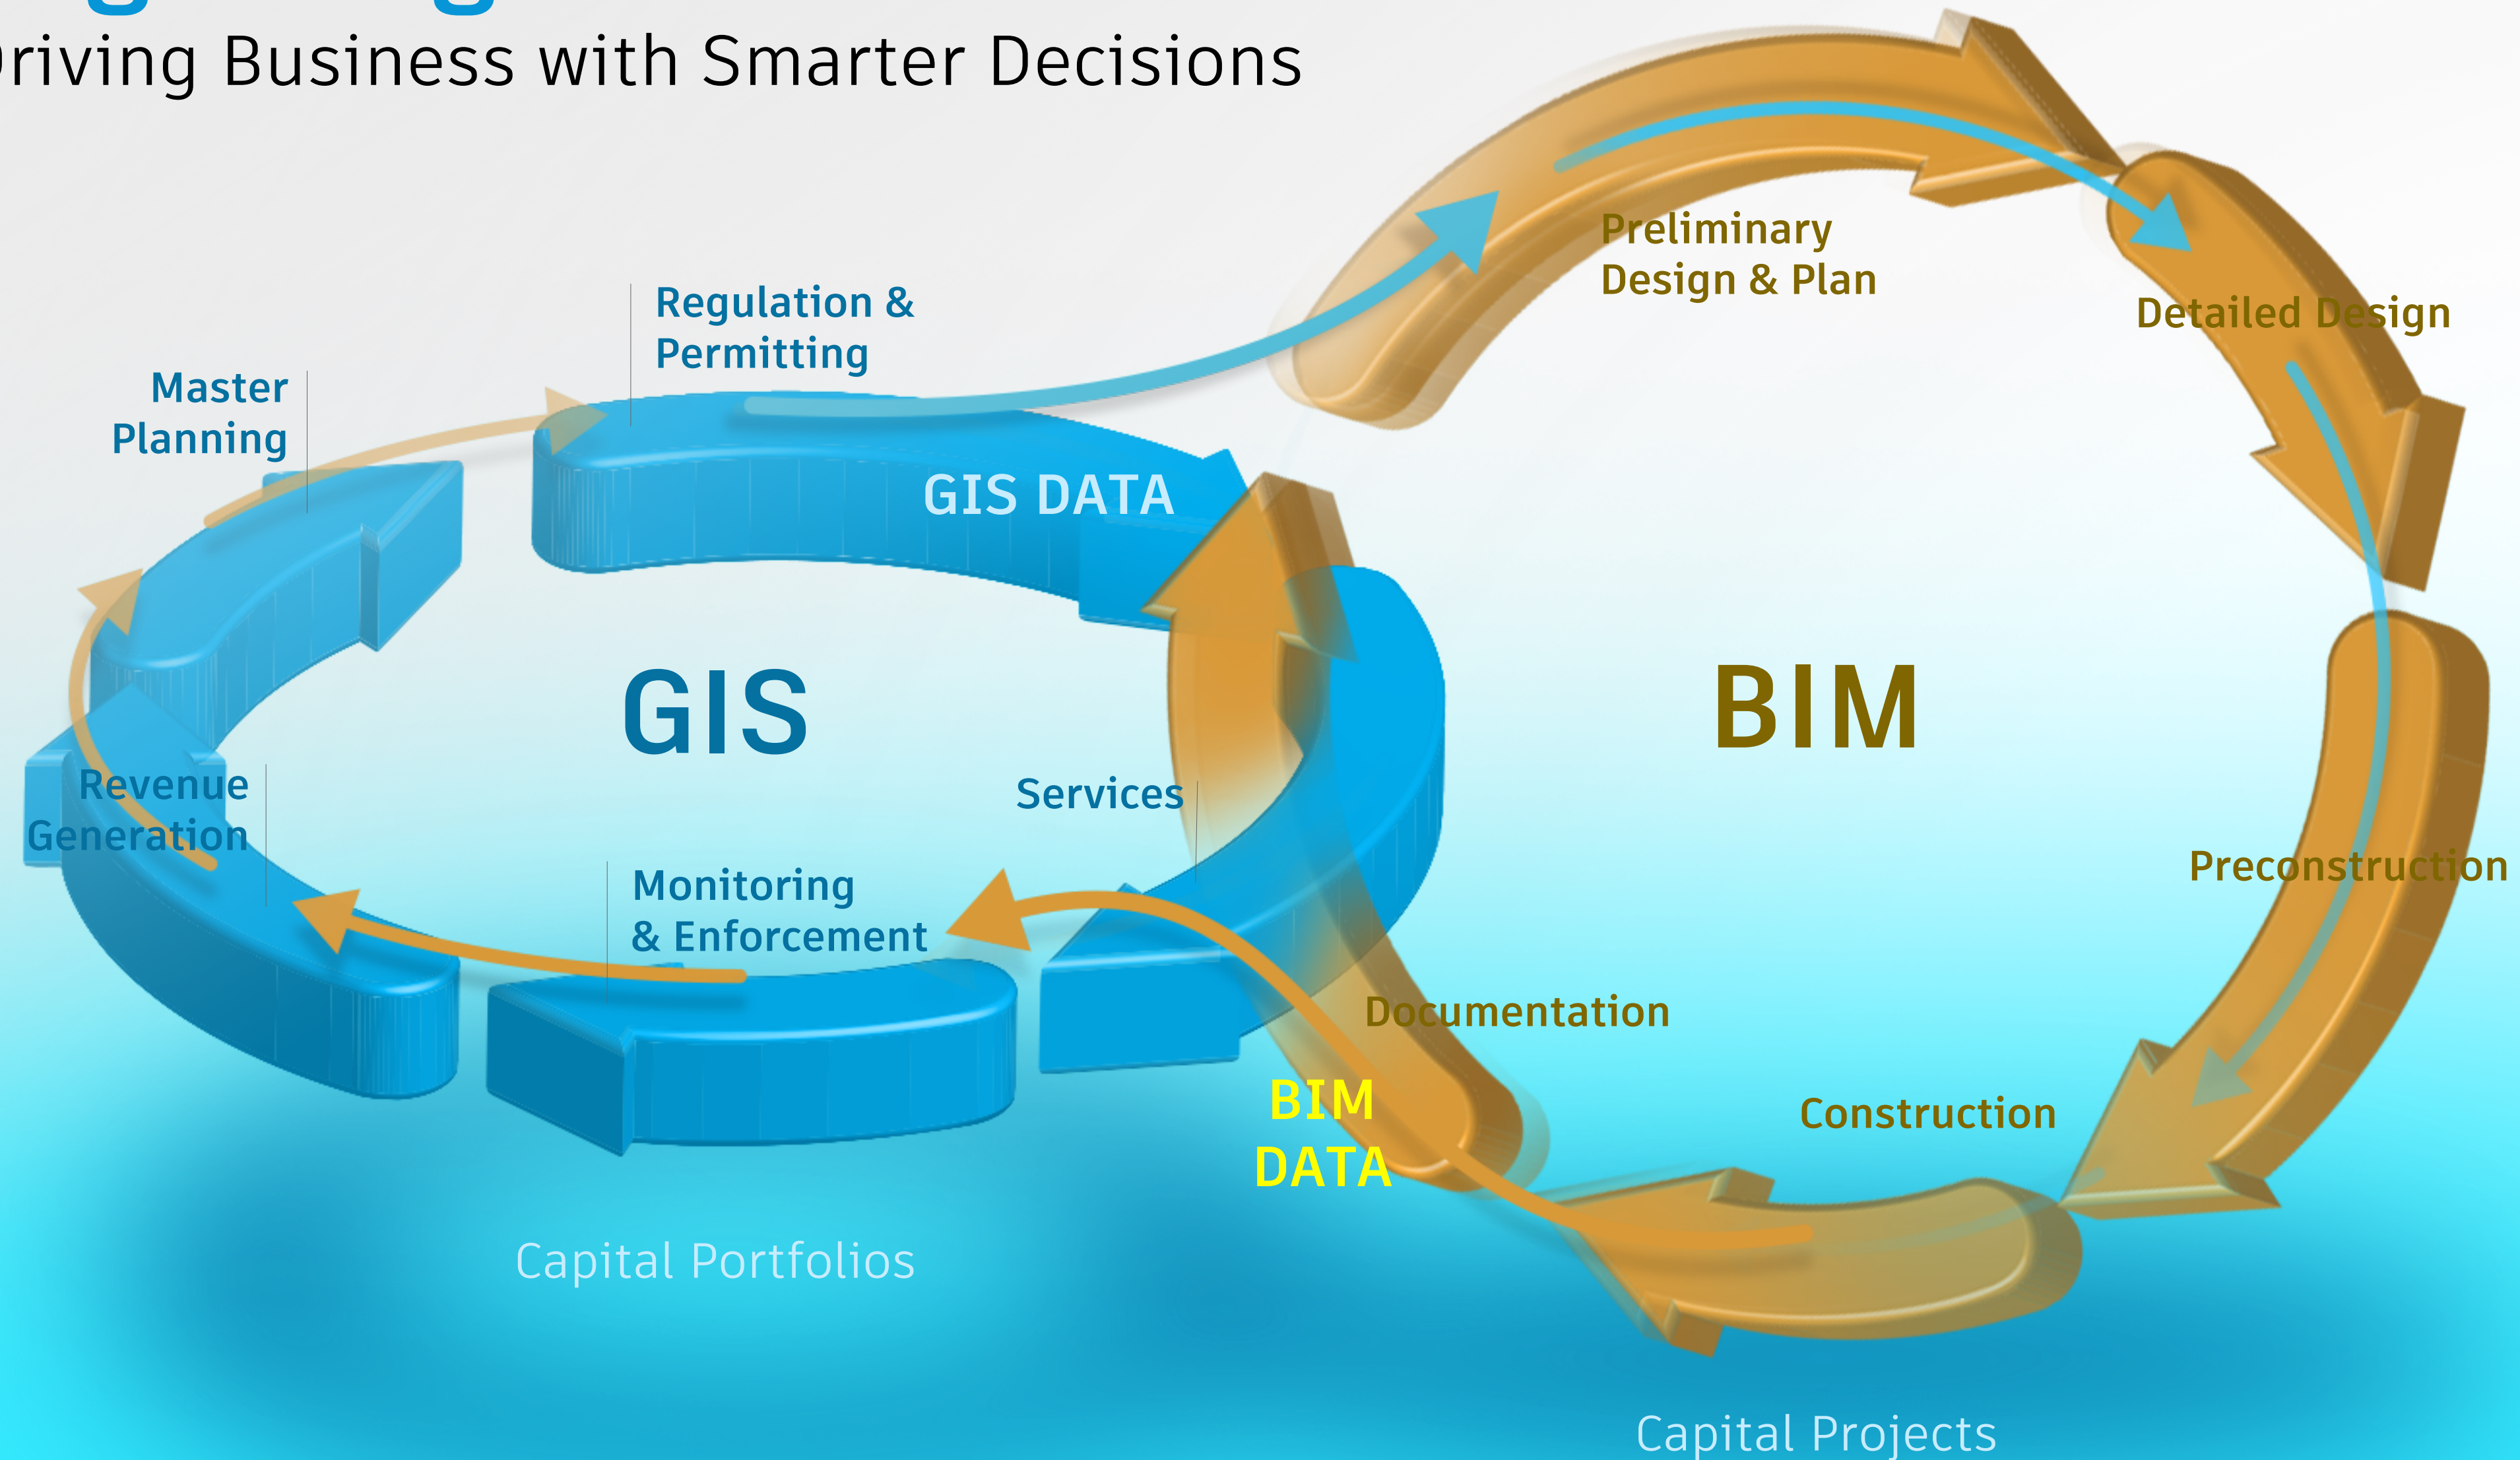

Build your Digital City model in hours, not weeks

- **Connect and explore**
 - Terrain (surfaces)
 - Aerial photography
 - Transportation networks
 - Building footprints
 - Parcel maps
 - Hydrography
 - Zoning maps
 - Land use Maps
 - 3D/BIM/Revit models

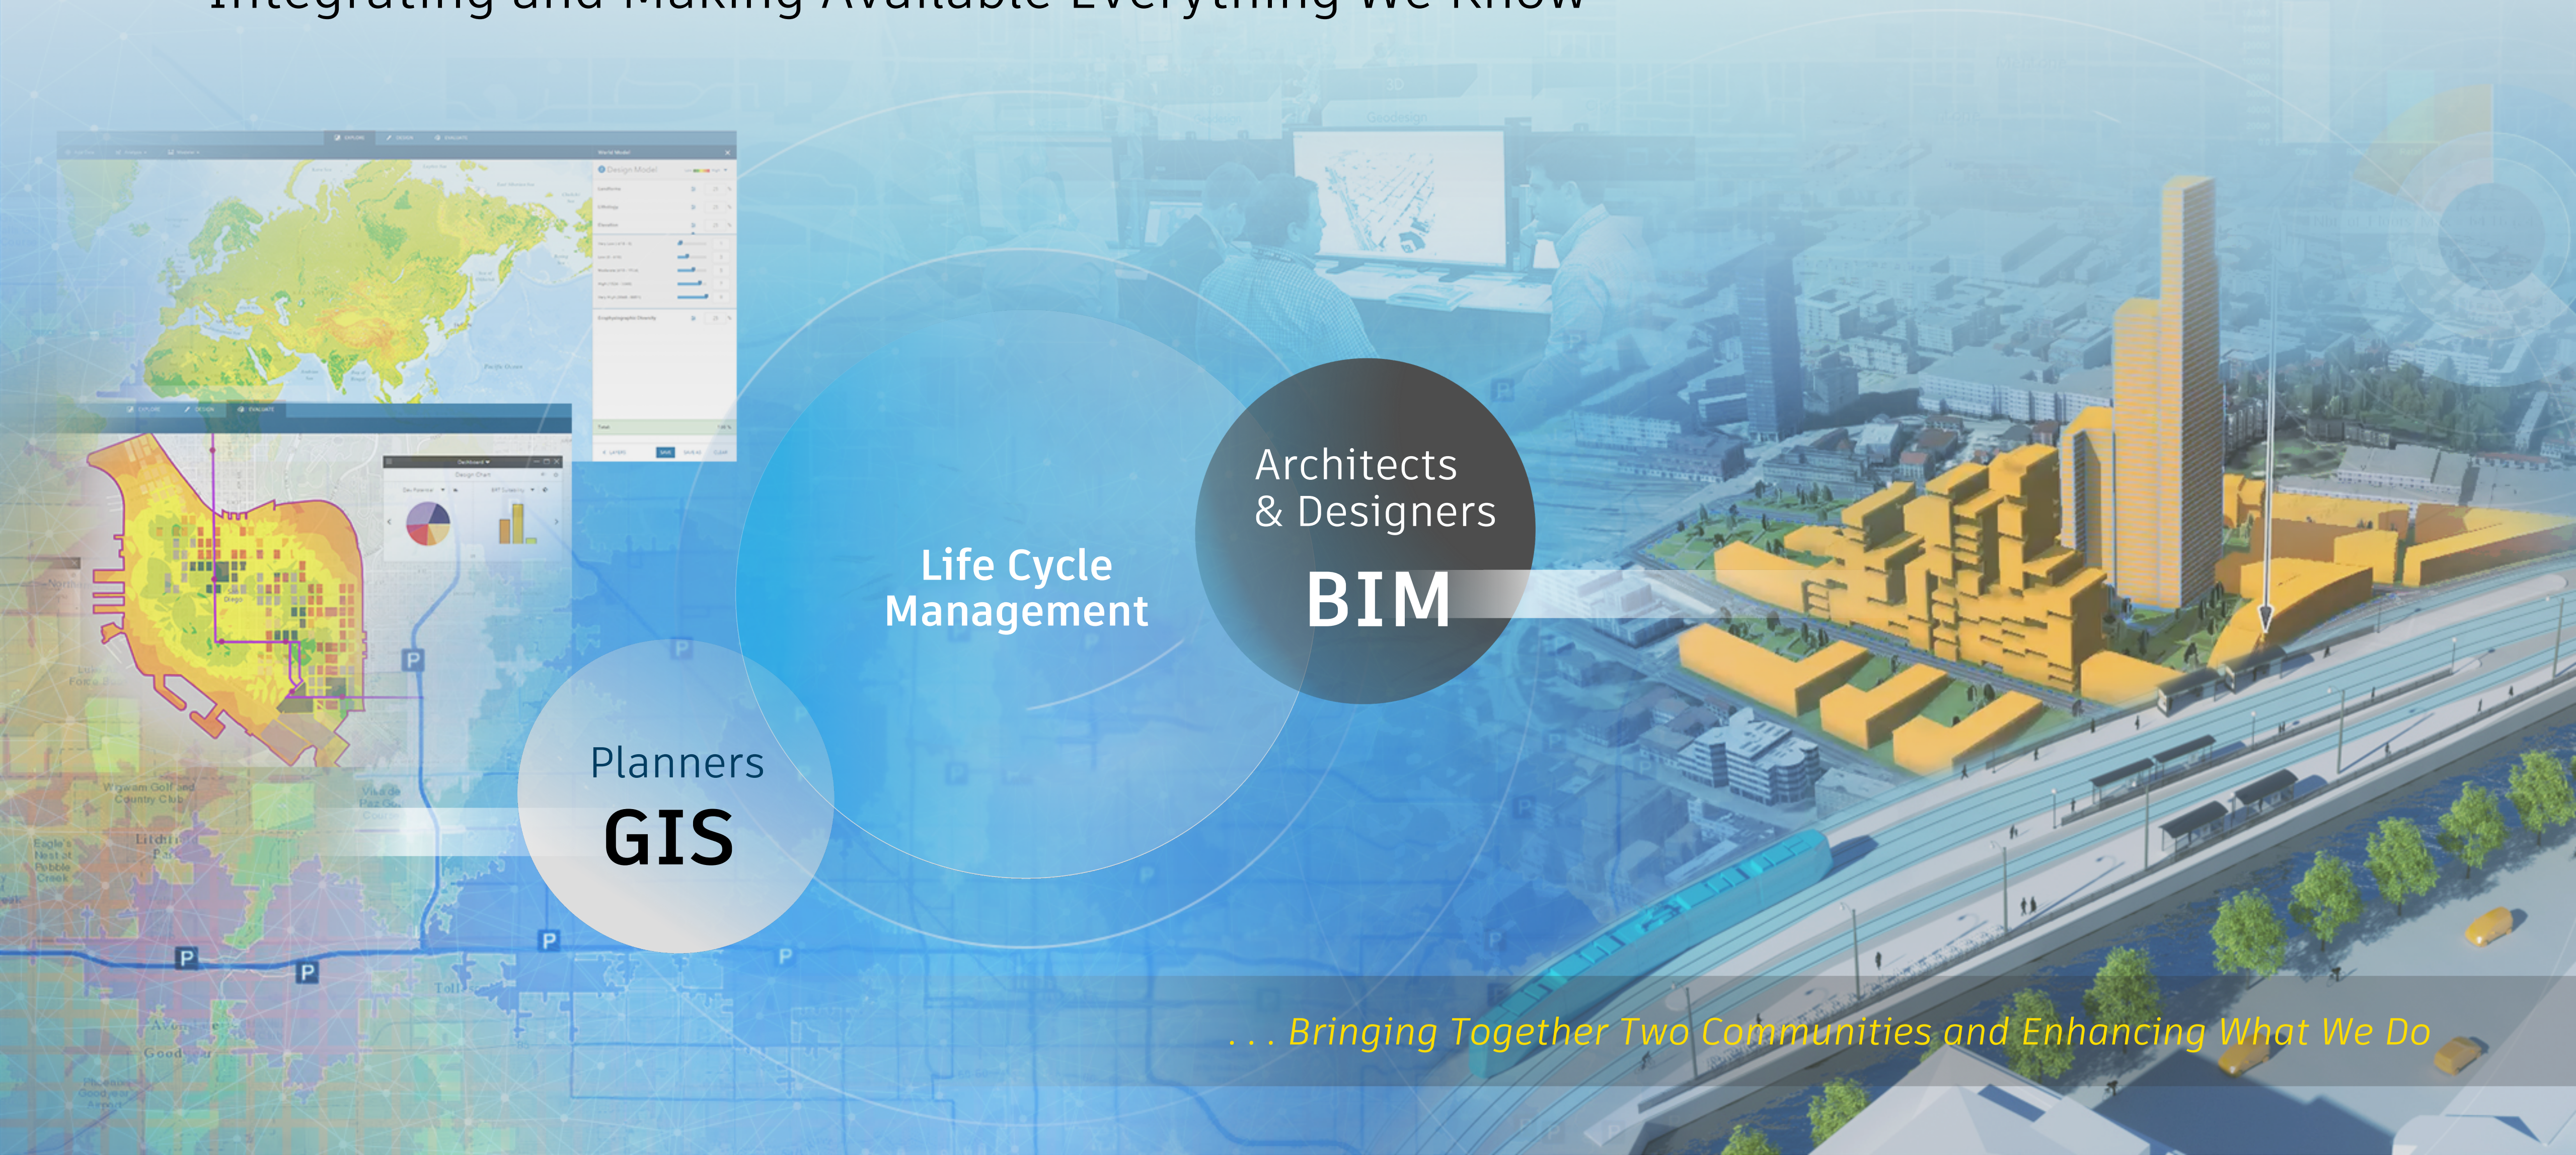

Integrating BIM and GIS Workflows

Driving Business with Smarter Decisions

GIS and BIM Are Revolutionizing How We Plan and Design

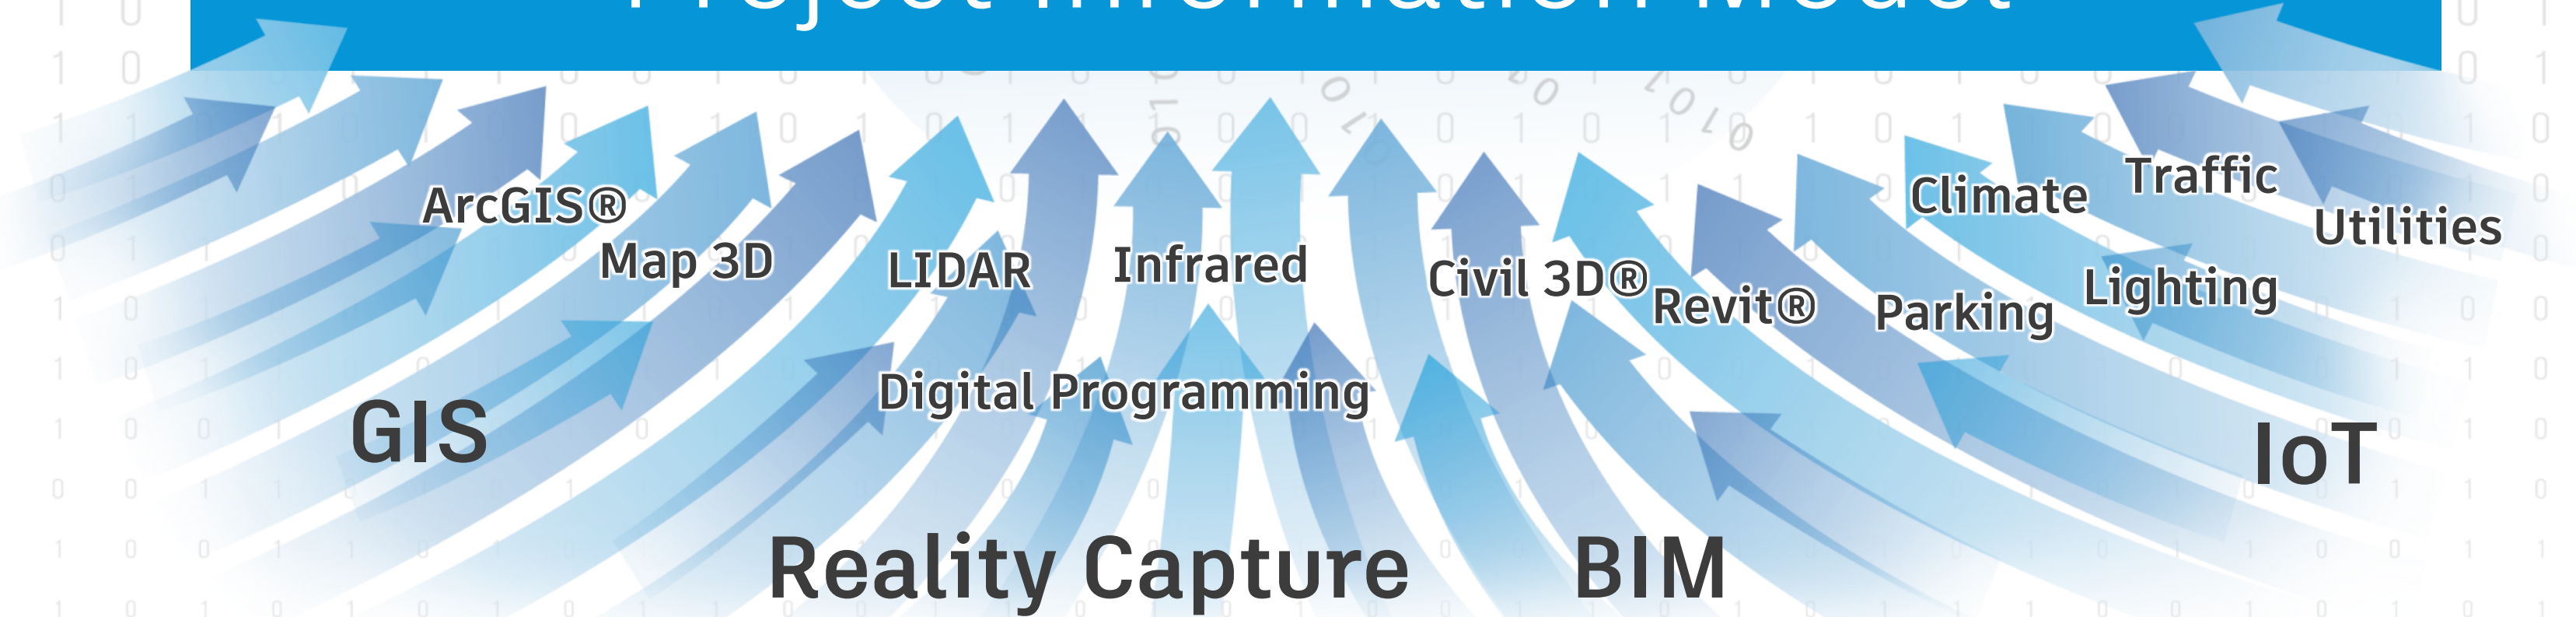

Integrating and Making Available Everything We Know

... Bringing Together Two Communities and Enhancing What We Do

Project Information Model

FEASIBILITY / PLANNING PHASE

Rambøll Sweco ANS - InterCity Sørli-Brumenddal

Existing railway

An aerial photograph of a coastal town, likely in Norway, showing a dense urban area with many buildings and streets. A railway line is highlighted in yellow, running along the coast and through the town. The town is situated on a peninsula or near a large body of water, with a forested area to the left. The text "Existing railway" is overlaid in a white box in the upper left corner.

Existing railway

Jernbaneverket

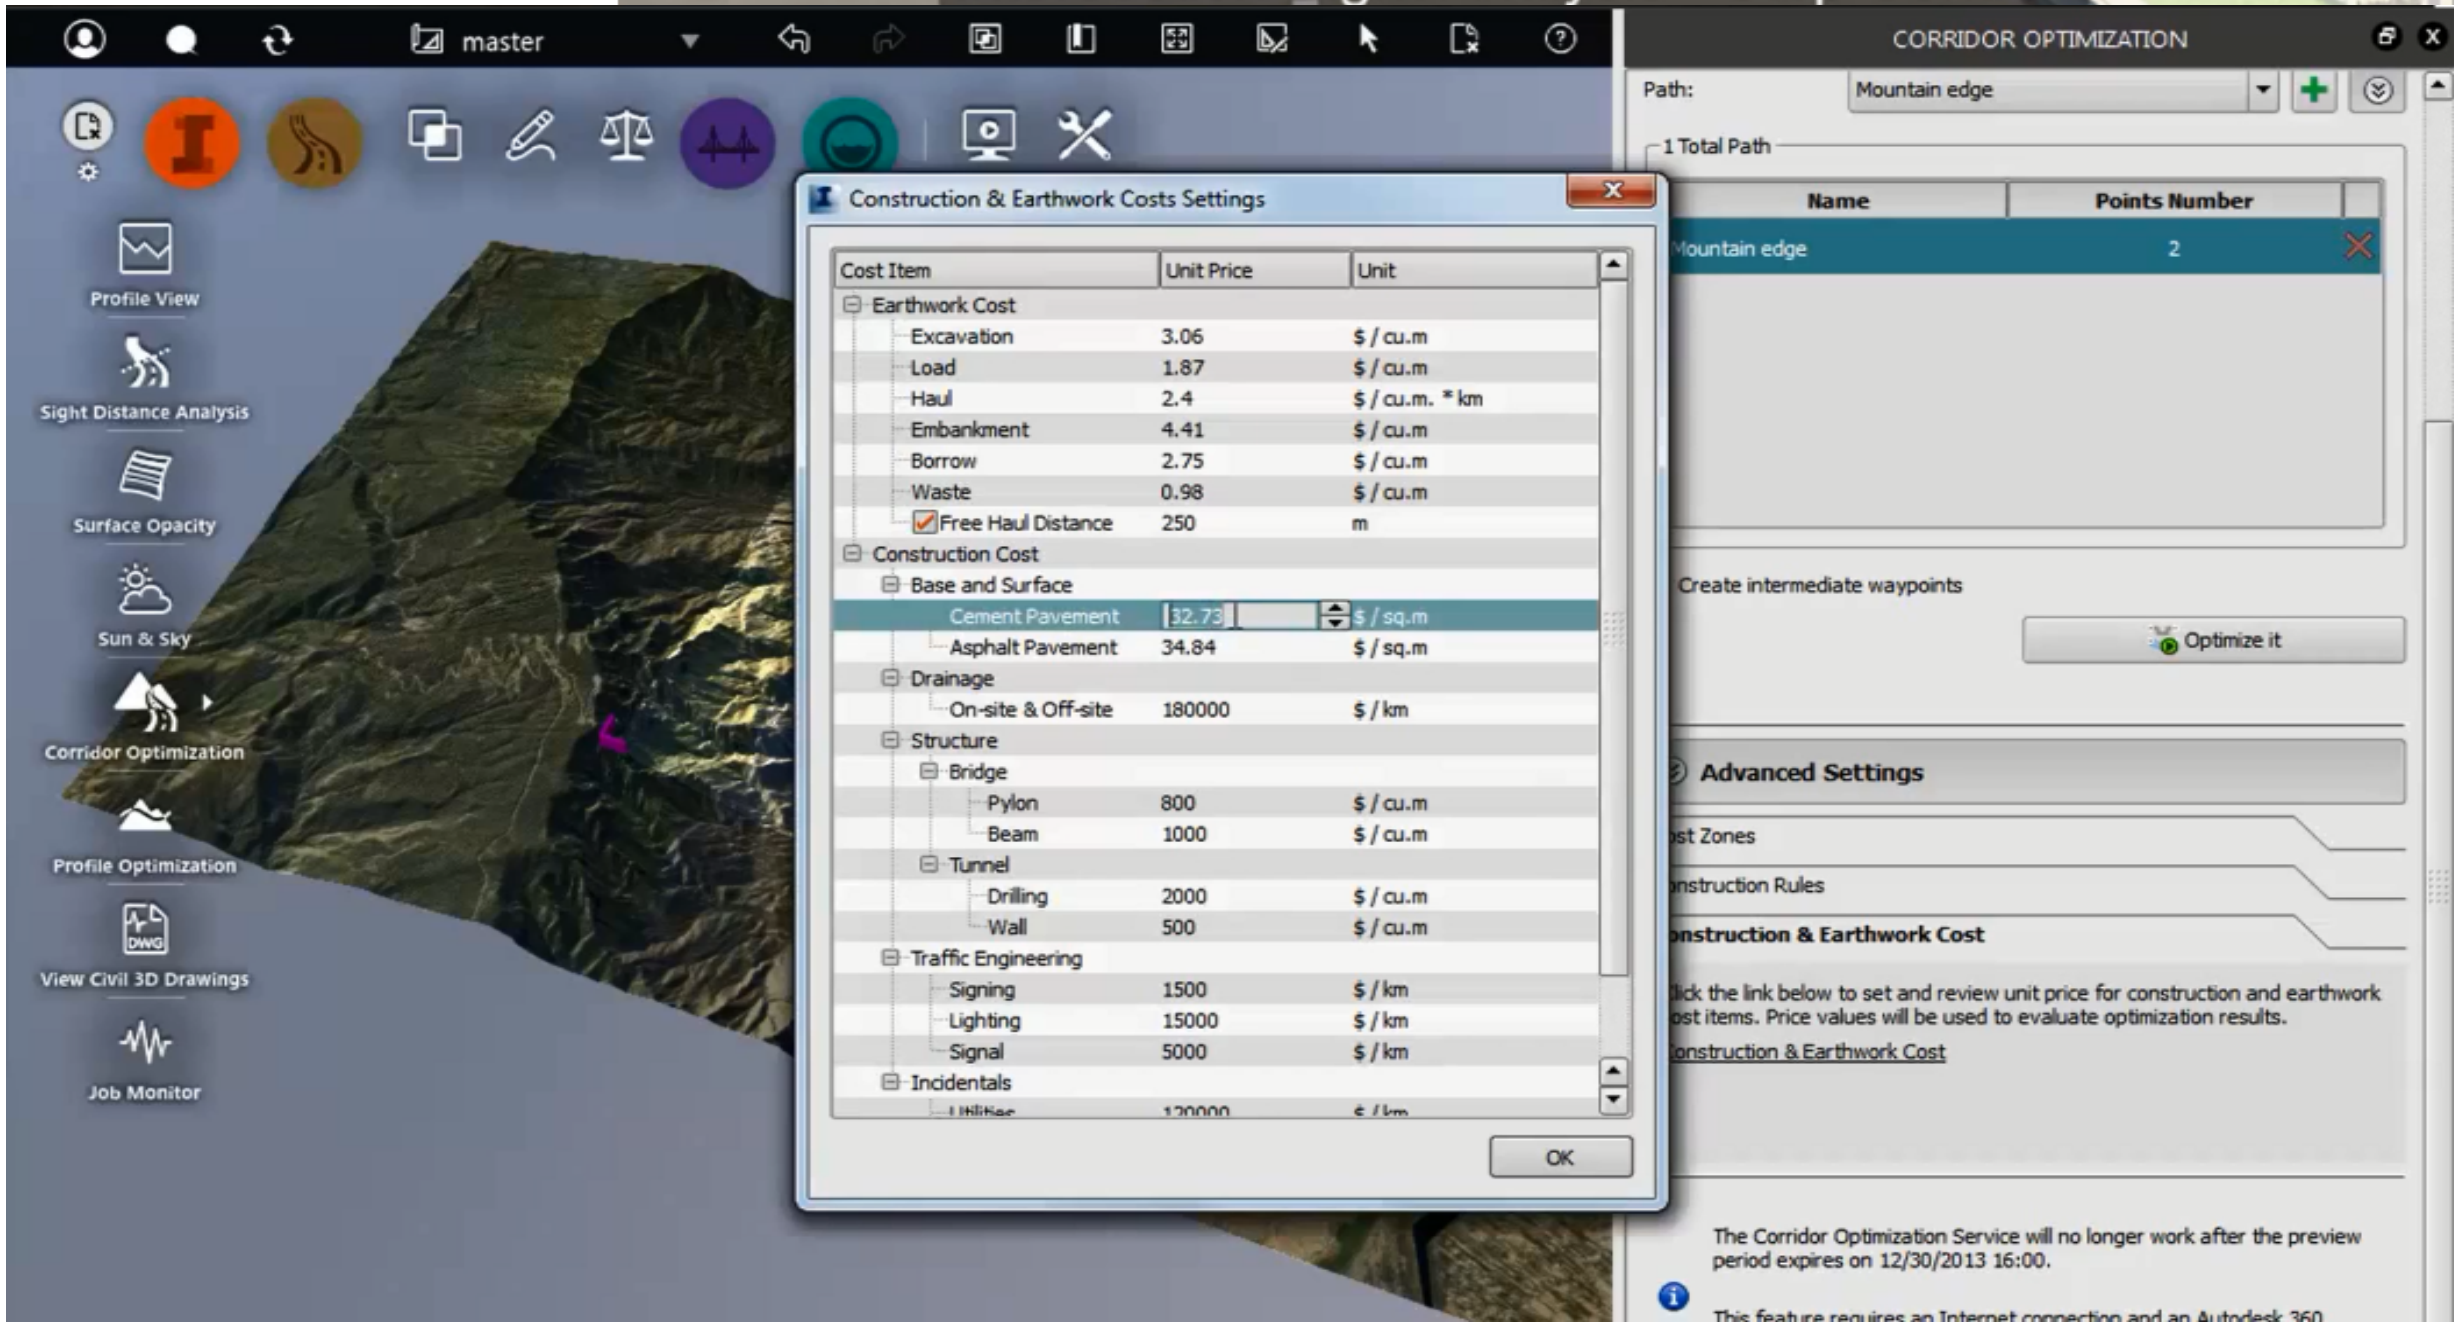

Concepts Performance Analysis & Evaluation

- Thematic Maps, Sight analysis...
- Material Take-offs
- Unit Costs
- Corridor/profile optimization & reporting

5. VOLUME REPORT

Station:	Cut area: (m ²)	Cut vol: (m ³)	Fill area: (m ²)	Fill vol. (m ³)	Cum. cut: (m ³)	Cum. fill: (m ³)	Cum. net: (m ³)
0.00	0.51	0.00	0.57	0.00	0.00	0.00	0.00
92.00	4.72	343.64	0.00	3.38	343.64	3.38	340.27
